

NUMISMATIC

PACKAGING

2024 EDITION

GERMANIA
MINT

INTRODUCTION

Germania Mint Packaging serves as a natural vehicle for telling the story behind each coin. Our advanced solutions for storage, protection and presentation enhance the collector's experience and increase product value.

With 15 years of product development experience on hundreds of projects for the world's largest banks and mints, Germania Mint integrates this knowledge into its packaging creations. The company's innovative and uncompromising approach to design and quality has set a new standard in the collector's market.

Each packaging design begins with the coin itself, inspiring the creative concepts and selection of appropriate forms. Germania Mint crafts packaging in various formats, sizes and finishes, specializing in paper, laminated and wooden boxes

and exploring new display methods, including acrylic and metal options.

Each package can be a work of art in itself. At Germania Mint, we offer a wide range of ready-made solutions that can be quickly adapted and implemented for specific projects.

Additionally, we are prepared to create entirely new and innovative packaging designs. Our experienced team will assist you in selecting the best options at every stage of the project.

GERMANIA MINT

Germania Mint offers a diverse range of packaging solutions for numismatic products, showcasing an impressive array of equipment and techniques:

- **Versatile Printing:** Our subsidiary - Runa Print, produces cardboard-based products with digital and offset printing.
- **Printing Technology:** Our digital UV flatbed printer delivers high-quality CMYK and additional color printing on various substrates with UV curing.
- **Plastic Forming:** Our forming machine shapes plastic precisely using high temperatures.
- **Cutting Equipment:** Our cutting plotters and laser cutters handle materials from cardboard to acrylic.
- **Mechanical Cutting:** Our die-cutting machines ensure precise mechanical cutting.
- **Hot Stamping and Embossing:** This technique uses heated matrices to emboss or imprint designs on wood, cardboard and paper.
- **Lamination:** Our lamination department applies hot glue, creates creases and presses materials for high-quality laminated products.
- **Assembly:** The "confection" department manually assembles components into complete packaging, ensuring high quality.
- **Carpentry:** Since 2022, our carpentry workshop produces wooden boxes, frames and stands.
- **FSC™ Certification:** To meet consumer needs and ensure sustainable supply chains, in 2023 we introduced FSC™ certification and launched the Sustainable Packaging series.

BLISTERPACKS

Blisterpacks can be categorized by size, number of sides, coin holders and enhancements. In terms of size and shape, the only limits are our imagination and the technological capabilities of our cutting tools. The number of sides ranges from 2-sided coin cards to 10-sided blisterpacks. Current fillings include foam and plastic, while enhancements offer a multitude of combinations such as protective film + UV, protective film + hot stamping, embossing and more.

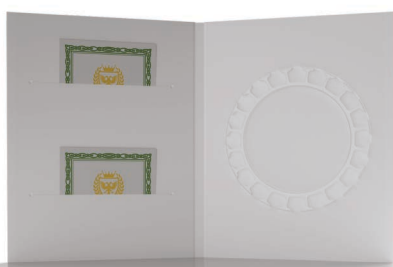

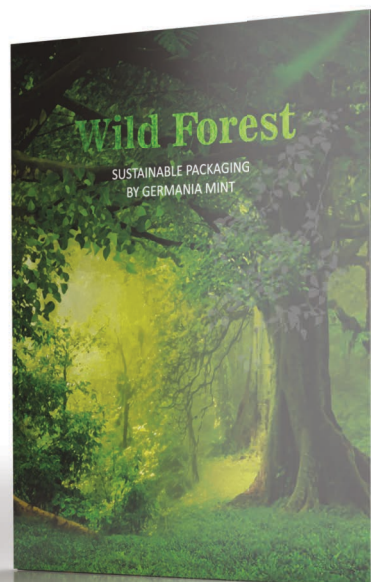

- Diverse size and shape options
- Multiple side configurations
- Foam and plastic coin holders
- Variety of enhancements
- Technological flexibility

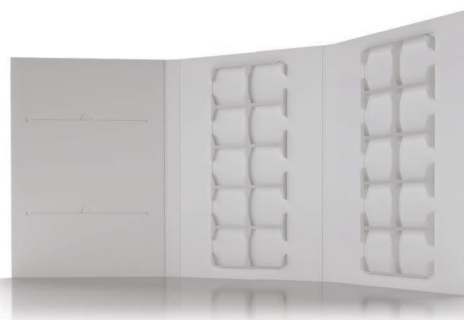

BLISTERPACKS WITH A PLASTIC POP-UP SYSTEM

Cardboard blisterpacks with plastic pop-up system are designed for the presentation of capsuled coins, enables multiple insertion and removal of the capsules from the plastic holders. Perfect solution for a series of coins allowing collectors to insert the coins into the packaging themselves.

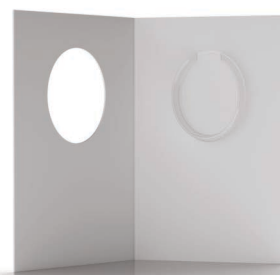

Blisterpack 195x250 mm,
4 sider with plastic inlet for capsuled coins

Blisterpack 210x300 mm,
6 sider with plastic inlet for capsuled coins

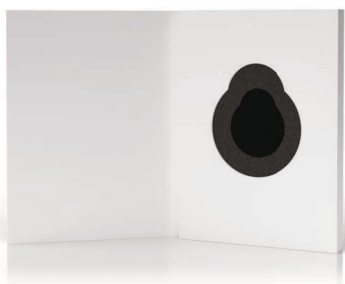

Blisterpack 120x200 mm,
4 sider with plastic inlet for capsuled coins

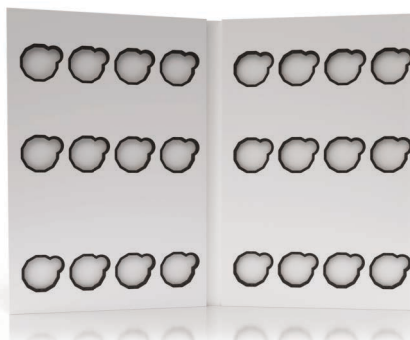

Blisterpack 90x140 mm,
4 sider with plastic inlet for capsuled coin

Cardboard blisterpacks with a foam inlay allows presentation of numismatic items and coin in capsules of unusual shapes. Ideal packaging for interesting collections of medals, where the customer collects medals over a long period of time.

6 sider with plastic inlet for set of coins

Blisterpack 100x150 mm,
4 sider with cardboard frame for coinard

Standing blisterpack 150x150 mm,
with plastic inlet for set of coins

Laminated albums, boxes and blisterpacks are characterized by their greater thickness. These products combine decorative paper, usually weighing 150-170g, with solid cardboard, providing robust and attractive packaging solutions.

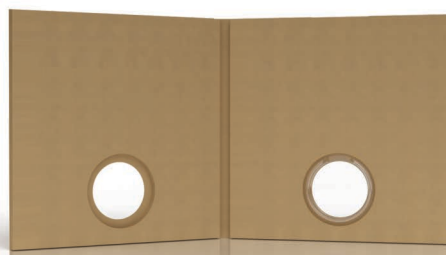

LAMINATED PACKAGING

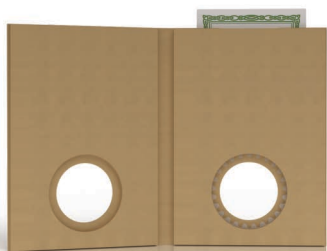

- Increased thickness for durability
- Combination of decorative paper and solid cardboard
- Robust construction
- Attractive presentation
- Versatile design options

Laminated Standee 90x140 mm,
with plastic holder for capsuled coin

Laminated Blisterpack 140x140 mm,
4 sider with plastic holder for capsuled coin

Laminated Blisterpack 100x140 mm,
4 sider with plastic holder for capsuled coin

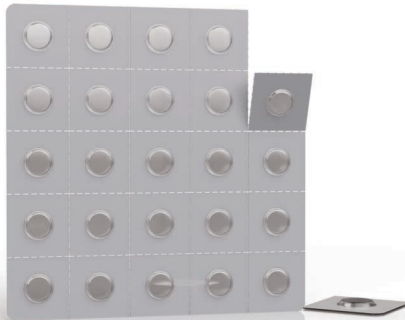

Laminated Album 217x300 mm,
4 sider with plastic inlets for capsuled coins

SAFE PACKS

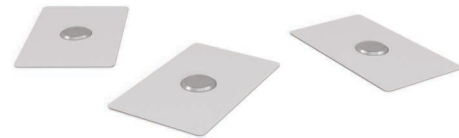

Safe Packs are dedicated to smaller bars and coins. The most popular size is 54x85 mm (credit card size). Made from two printed plastic elements, bonded with a super strong adhesive film, one element is embossed to the height of the coin or the bar. Safe Packs can also come with perforations to hold multiple coins, allowing individual coins to be separated by the end customer.

- Suitable for small bars and coins
- Perforated multicoin Safe Packs
- Standard credit card size
- Various sizes available

Perforated Safe Pack 150x150 mm,
for coins

Safe Pack 54x85 mm,
for a coin

Transport Box 180x90x55 mm,
with plastic tray for Safe Packs

Perforated Safe Pack 150x60 mm,
for coins

BOXES

We offer many types of boxes with wooden boxes as our flagship product in this category. Wooden boxes, frames and stands made from wood treated with oil. Our carpentry capabilities allow us to produce boxes of various sizes. Frames have evolved with CNC machine technology, enabling not just rectangular shapes but also round and octagonal designs.

- High-quality wood boxes
- Laminated and cardboard boxes
- Customizable sizes and shapes
- Personalized printing and engraving

Wooden Box 200x150x34 mm,
with a foam inlay for coins

Cardboard Box 100x100x18.5 mm,
with a foam inlay for a coin

Laminated Box 110x110x26 mm,
with a foam inlay for a bar

Beautybox 101x101x34.5 mm

DISPLAYS

Exquisite displays designed for showcasing individual coins. These stands provide an elegant and practical way to exhibit numismatic items. Our flagship Acrylic Glass Displays combine usually 7-15 mm thick acrylic with a wooden base, personalized with printing and engraving.

- Ideal for showcasing individual coins
- Elegant and practical design
- Versatile display options
- High visibility for coins
- Acrylic and wood combinations

Acrylic Glass Display,
with a wooden stand

Planetary Acrylic Glass Display,
with a wooden stand

Acrylic Glass Display,
without a stand

Hexagonal Wooden Display

Ensuring the packaging is appropriate, safe and elegant is crucial for new products. Custom capsules elevate the interaction with the coin, featuring a lens effect that highlights coin details. Each capsule is tailored to specific coins, with precise dimensions.

COIN CAPSULES

- Tailored to specific coins
- Lens effect for enhanced detail
- Safe and elegant protection
- Continuous innovation

Coin capsule Round, 38.8, SAN, lens, for \varnothing :38.8 mm, h:3 mm coin

Coin capsule Qube, PMMA, lens, for \varnothing :43.2 mm, h:2.85 mm coin

Transport Box with a plastic tray for 5 Capsules Infinity

FSC™ - CERTIFIED PRODUCTS

FSC™ C195522

Our packaging, certified by the Forest Stewardship Council (FSC)™, is crafted from materials sourced from responsibly managed forests. These products not only safeguard numismatic items but also underscore our commitment to sustainable practices and environmental protection.

In response to climate change, consumers are increasingly attuned to the origins of the products they purchase. They seek to make responsible choices that consider both social and environmental impacts. This shift in consumer behavior is mirrored in evolving business regulations. Our company actively takes steps daily to minimize our environmental footprint. One key initiative is offering FSC™-certified products to promote proper forest management. We strongly encourage the use of FSC™-certified wood and paper for packaging wherever possible.

Why Choose FSC™- Certified Products?

- **Trustworthy Certification:** FSC™ is recognized as the leading certification system for forest management.
- **Environmental Protection:** Ensures the preservation of endangered forests and forests of special conservation value.
- **Sustainability Promotion:** Supports sustainable forest management practices.
- **Alignment with Eco-Friendly Values:** Reflects a commitment to environmental responsibility.
- **Demonstration of High Standards:** Signals high environmental and ethical standards within the company.
- **Respect for Rights:** Confirms that employee rights are upheld throughout the supply chain.
- **Market and Policy Alignment:** Helps align with green public policies and opens up access to new markets and public tenders.
