GERMANIA

2024 GERMANIA

The Germania Mint's flagship series, which debuted in 2019, showcases the embodiment of a resolute and courageous Germania alongside the dual-headed eagle, a symbol of triumph and sagacity. This design synergy aligns seamlessly with the aim of crafting a coin that bears a distinct European heritage. Each year, Germania continues to astonish the numismatic community with inventive additions, such as enlarged obverse designs, animation elements, and unique ennobling touches.

2022 GERMANIA BEASTS: FENRIR GEMINUS
2 X 1 OZ SILVER BU

The ancient culture of Germania boasts a rich history replete with the oldest and most fearsome of creatures. In the Germanic bestiary, these beasts predominantly fell into the categories of malevolent and hazardous, with only a handful considered benevolent and safeguarding companions. The compilation of Germanic Beasts in coin form provides a secure means of engaging with these monstrous entities.

VALKYRIES

SOLVEIG

The Valkyries series serves as a heartfelt homage to the courageous Germanic women warriors who fearlessly confronted their adversaries. The impetus for immortalizing these figures drew inspiration from Odin's daughters, ethereal beings who one could encounter posthumously as they ushered the fallen from the battlefield to the realm beyond. Possessing extraordinary abilities, these resplendent, golden-haired maidens determined the destiny of the departed.

Foretelling the future, warding off evil spirits, and secret botanical knowledge were the key abilities that distinguished Germanic Witches. Meet the heroines of the Witchcraft series. Discover their magic, delve into the symbolism hidden in the coin details, and draw energy from magical stones.

GOLDEN EAGLE

2024

The eternal battle between good and evil seems to have no end... This is the theme of the first bullion from Germania Mint. The majestic Golden Eagle struggles against the dangerous and vicious serpent, symbolizing temptation. The clash between Europe's strongest eagle and the reptile takes place against a background of sea waves. They refer to the Mediterranean Sea, on which Malta is located, as Central Bank Of Malta is the partner of this Germania Mint issue.

2024 MALTA GOLDEN EAGLE 5 EURO 1 OZ SILVER BU

KNIGHTS OF THE PAST

2023

The impressive military potential of the Order of Malta became the inspiration for the series of bullion coins, which we issues in cooperation with the Central Bank of Malta. The high quality of minting and precious metals harmonizes with an artistic vision – a modern look at the history of the Knights of Malta.

COPERNICUS

2023

2023 MALTA COPERNICUS 10 EURO 2 OZ SILVER BU

To mark the 550th anniversary of the birth of Poland's most famous astronomer, Nicolaus Copernicus, we issued a unique series of three coins. Nicolaus Copernicus launched the scientific revolution and had a significant impact on its development. His most important achievement is the heliocentric theory, which stated that the Earth and other planets revolve around the Sun.

RUNES

CAST BARS

2024 GEBO RUNE 1 OZ AG 999.9 CAST BAR

2023

2024

2025

The Runes are cast collectible bars, made of 999.9 silver, marked with an individual number and mint mark. Each Rune is ennobled with a magical color, which reveals itself only when illuminated with a UV flashlight. The runic alphabet (Elder Futhark) is a script once used by Germanic peoples. Each of them has a specific sound and meaning. Germania Mint will issue eighteen Runes, each year six Runes will appear in a unique color. Collect the Runes and possess their power!

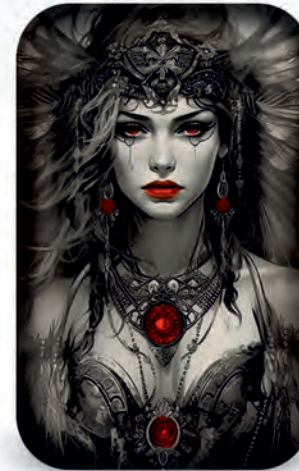

GODDESSES

2024

Beautiful, commanding and unyielding... such were the Germanic Goddesses, who played a fundamental role in the world of deities, kings, warriors and beasts. They performed guardian functions, presided over various aspects of life and nature, and were linked to combat and the fate of men. The six heroines of the series of silver cast bars will bring you to a world full of feminine power, magic and desire.
